## Hitler Faces Disastrous End to Russian Campaign

### Signs Show New Drive Into Turkey

British Announce New Air Reinforcements for Middle East to Meet Threat

### Bulgars Declare

War on U. S., Britain Declared by Bulgaria as Axis Aide

(By The Associated Press)

A disastrous end to Adolf Hitler's invasion of Russia was freely predicted by London military quarters today as Moscow proclaimed the utter defeat of a 750,000-strong German army and signs multiplied that Hitler might be planning a new campaign through Bulgaria into Turkey and the middle east.

The prospect that the Nazi Fuehrer, heartily sick of bloody losses and bitter hardship suffered on the frozen steppes of Russia, may have decided to lash out in another direction found these supporting omens.

Britain announced that she was sending immediate aerial reinforcements to the middle east—evidently to meet a new threat, since British armies already had the Germans and Italians on the run in North Africa.

### Bulgaria Declares War

German-dominated Bulgaria which had remained neutral and hence legally not entitled to serve as a base for German operations, declared war on Britain and the United States.

Germany has officially announced that her armies in Russia were withdrawing to "new defense positions" for the winter—possibly a subterfuge to mask the shifting of these forces to the middle east.

Russian reports of new German "peace feelers" to Moscow, which the Soviets have bluntly rejected, indicated that Hitler wanted to free his hands for another military venture.

Heavy German troop concentrations have been reported from time to time in southern Bulgaria, including her Black Sea ports, in position for an attack on Turkey if that country refused to permit transit of Nazi legions across the Turkish "land bridge" between Europe and the middle east.

In this connection, observers recalled with new meaning President Roosevelt's declaration that the defense of Turkey was essential to the defense of the democracies—a statement made by the President last week in disclosing that U. S. lease-lend supplies have been flowing into Turkey.

### White Way Blackout

New York, Dec. 13 (AP)—The heart of New York city's great white way will be blacked out tonight in a test. Brightly-lit marquee and lobbies of theatres along West 45th street, housing many current hits, will be darkened as soon as patrons have ended for the night performances. Meanwhile, Police Commissioner Lewis J. Valentine intimated that entire city would have a complete practice blackout soon.

### Pledges Loyalty

Kingston's Sisterhood of Temple Emanuel through the National Federation of Temple Sisterhoods, world's largest Jewish women's organization of which it is a member, has pledged to President Franklin D. Roosevelt "absolute loyalty, boundless faith and unceasing work." The pledge was contained in a message sent to the President by Mrs. Hugo Hartmann, national president.

### Army Gets Man Plus

Freeman Photo

Uncle Sam's fighting forces gained a man, and then some, through the enlistment at the local recruiting station yesterday afternoon, of Herbert Bernard Wyndham, Jr., of New Paltz. Herbert heads upward to the super-mani height of six feet, six inches and he carries a well proportioned 200 pounds in those man-sized shoes. Wyndham is shown beside Recruiting Sergeant Spangberg. The youth was born June 17, 1922, at Charleston, S. C. He is interested in civil engineering and that fact may be of some help to his country. In answer to the query, "What gave you the idea of becoming a soldier?" he answered tersely, "patriotism and a desire for training."

## Japanese Seem 'Sucked in' Over Hitler 'Horse Deal'

Sons of Nippon Are Doing Best to Get Toe-Hold in Vital Areas, but Are Ineffective

By DEWITT MACKENZIE  
(Wide World War Analyst)

What appears to be an impending major assault by the Japs against strategic Luzon Islands in the Philippines is the important development at this writing in the battle of the Pacific—a further grim test for our defenders, and good luck to their stout hearts.

Luzon, on which lies Manila and the naval base of Cavite, is the key to the Philippines. While the loss of these islands wouldn't represent a decisive victory for the Japanese, it would be a heavy blow against our striking power at this juncture.

The enemy has concentrated heavy sea-forces off the province of Zambales, which is on the west coast of Luzon and throws a protective arm about (Continued on Page Eight)

## Six Nations of Iroquois Confederacy Soon May Go to War Against Axis

Syracuse, N. Y., Dec. 13 (AP)—The six nations of the Iroquois confederacy soon may take the war path again, this time against the Axis powers.

Chieftains of the confederacy, which declared war against Germany in 1917 and never wholly ratified the peace, were preparing for a longhouse pow-wow to debate the white man's war. Tribal leaders indicated they will ally their warriors with the United States and "great white father" in Washington.

A war declaration, however, must be sanctioned by the confederacy's council, expected to assemble within ten days on the Onondaga reservation, capital of the six nations government.

The great peace marking the end of World War I was ratified by the Mohawks, Oneidas, Onondagas, Cayugas and Senecas but the Tuscaroras alone among the six nations continue after 22 years in a state of war with Germany.

Judge Tells Jury Man Is Not Jailed Merely for Opinions in U. S., but for Actions

New York, Dec. 13 (AP)—The conviction of 14 tight-lipped defendants accused of supplying military information to Germany today capped the government's drive against one of the most fantastically-operated spy rings in recent history.

The 14-week-long trial ended early today with a comparatively speedy verdict. A jury of nine men and three women deliberated only eight hours before finding the 14 guilty on both counts of an indictment charging conspiracy to avoid registering as German government agents and conspiracy to deliver to the Nazi government vital American defense secrets.

The verdict carried a maximum sentence of 22 years. Federal Judge Mortimer W. Byers said he would set a date for sentencing Monday. George Gordon Battle, one of the defense attorneys, said he expected to appeal and several other lawyers indicated that if Battle had the 2,150,000-word record printed, they also would appeal.

Judge Byers said in his 2½-hour charge to the jury that it was "unfortunate" that war started during the trial, declaring it was "probably no exaggeration" to say the defendants had "manifested deep sympathy for Germany."

"Bear in mind, however," he cautioned the jury, "that men are not sent to jail for their opinions in this country. A man is entitled to believe that the German race is a superior race, and that the world was created in order that the German race might dominate it. So long as he does nothing to carry those views into effect to the detriment of the United States there is no attempt on our part to discipline him merely for what he thinks."

The trial disclosed that the government had scored what its agents believed an unparalleled triumph in counter-espionage.

The Federal Bureau of Investigation virtually fathomed the spy ring, said to have 20 unapprehended members now in foreign countries, by jailing its coded short-wave messages between here and Gestapo headquarters in Hamburg. The F. B. I. built and operated a "spy" station on Long Island, where agents learned the identity of German spies, their assignments and activities.

Those convicted were Herman Lang, 40, a Norden Company employee; Conrad Dold, 35; Heinrich Eilers, 2; Paul Scholz, 41; Franz Josef Stigler, 34; Erich Strunch, 32; Adolf Walschewski, 50, all employees of American Steamship Lines; Frederick Duquesne, 63; Rudolph Ebeling, 43; Edmund Heine, 50; Josef Klein, 38; Carl Reuper, 37; Leo Waalen, 34, and Axel Wheeler-Hill, who admitted he was paid to report ship movements in the United States.

## Anderson Must Die

Lexington, Ky., Dec. 13 (AP)—Robert Anderson, stolid-faced 36-year-old former Louisville cafe operator and ex-convict, must pay with his life for the slaying of golf star Marion Miley in her Lexington Country Club apartment on September 28. This verdict was reached last night by a Fayette circuit court jury. Formal pronouncement of the sentence was deferred by Judge Chester D. Adams until Monday, when Anderson's two co-defendants, Tom C. Penney and Raymond S. (Skeeter) Baxter are called for trial.

Wagner (right) of Johnstown, Pa., was cited for shooting down two of five planes which attacked him, and machine-gunning 12 planes on the ground, setting five afire.

### State Drivers Get Only One License Plate for 1942

### Session Will Be Held at Grange Hall at 8 P.M.; to Open Headquarters

Albany, N. Y., Dec. 13 (AP)—New York state motorists will be issued but one automobile license plate for 1942 in an effort to conserve steel for defense purposes, a source close to Governor Lehman disclosed today.

While two plates for each operator already are in the hands of motor vehicle bureaus throughout the state, only one will be given an applicant, the source said, and the other will be saved for 1943.

The "1943 plate will bear the 1942 date but a tag or other form of identification will be issued next year to distinguish between the two plates, it was disclosed. The single plate is to be affixed to the rear of an automobile. Motorists who already have obtained 1942 plates will be required to return one of them, which will be saved until next year, the source said.

## San Francisco Undergoes Two-Hour Blackout; Unidentified Planes Heard

San Francisco, Dec. 13 (AP)—San Francisco, undergoing its fourth blackout of the war last night in an air raid alert that lasted two hours and 34 minutes, proved to the army that it knows how to turn out the lights.

A score of persons were injured, one man dropped dead, there was violence and property damage. Strange rumors were noised about. But the city was black.

It was such an improvement that Lieut. General John L. DeWitt, commander of the Fourth Army, who became angry over San Francisco's first bungling blackout attempted Monday, said he was "extremely pleased."

Blackness extended 100 miles eastward to Sacramento and was effective more than 50 miles southward past San Jose.

The only military announcement was one from Fourth Army headquarters saying that army detectors had located unidentified planes flying over the area.

## U. S. Wipes Out Japs at West Luzon

Tokyo Concedes U. S. Forces Still Holding Out Against Odds on Wake Island

## Manila Bombed

Manila Sends Appeal For Help "Before It Is Too Late"

(By the Associated Press)

Sea-borne Japanese troops which gained a foothold at Lingayen on the west coast of Luzon Island, 100 miles north of Manila, have been wiped out, it was reported officially today as American fighter planes pitched into waves of Japanese bombers in spectacular dogfights over the Philippine capital.

Other bad news from Tokyo was reported by the Batavia (Dutch East Indies) radio, which said 4,000 Japanese troops lost their lives when Netherlands submarines sank four Japanese troop transports off southern Thailand, near Malaya.

Simultaneously, imperial Tokyo headquarters obliquely conceded that American forces were still holding out on tiny Wake Island, about midway between Honolulu and Manila, where U. S. Marines have been fighting off savage Japanese air and sea attacks for days.

Japanese headquarters said military objectives on Wake Island had been severely damaged in an attack by Japanese naval units Thursday. The Japanese suffered some losses, it was admitted.

A Tokyo communique said eight American planes were shot down in aerial attacks on the Philippines and 14 others destroyed on the ground. Eleven American flying boats also were claimed destroyed. In the Far East, Domei broadcast a dispatch from Saigon, French Indo-China, asserting that British troops defending Hong Kong had withdrawn from their first line of defense following Japanese capture of Kowloon on the mainland facing the great British naval base.

Domei declared that "British forces in Hong Kong have been trapped and the fate of the Crown Colony is virtually sealed."

A bulletin from the Manila headquarters of Lieut.-Gen. Douglas MacArthur, U. S. Army commander-in-chief of the Far East, indicated that Japanese forces attacking the Philippines had failed to gain any new bridgeheads on Luzon Island.

"The situation on the ground has not changed," the communique said, adding that "mopping up in the Lingayen area has been completed."

## Battle Fifth Columnists

Manila itself experienced a wild, gun-blazing night in which sentries and police battled fifth columnists who fired red signal rockets over the city.

Rifle fire crackled in the sections where the rockets were sent up, and sentries shot into several houses showing lights in violation of the city's rigid blackout.

Reuters, the British news agency, quote a Domei dispatch from Shanghai as saying Honolulu air raids within nine hours after Secretary of the Navy Knox arrived there. There was no confirmation of this report.

Dispatches from Manila timed 3:10 p. m., Manila time (2:10 a. m., E.S.T.), said the enemy heavily bombed Nichols air field and native residential sections.

One flight of 10,000 feet passed directly over the Associated Press building post, drawing bursts of shrapnel from anti-aircraft guns.

American defense pilots attacked from above the planes and then swung up from below to get a second crack at them, the dispatches said.

First reports said several Japanese planes were shot down.

Meanwhile, Tokyo naval headquarters, silent on official U. S. reports that Japanese warships had fled to avoid battle with units of the American Asiatic fleet, claimed the sinking of a third United States battleship—the 32,600-ton Arizona—in action off Hawaii.

The Arizona, launched in 1915, has a normal complement of 1,358 officers and men.

Previously, Tokyo had listed the battleships Oklahoma and West Virginia sunk in the surprise attack on Pearl Harbor, Honolulu, last Sunday.

There was no confirmation elsewhere on the Japanese claim of the Arizona sinking. In Washington, the navy withheld comment, evidently in line with the policy (Continued on Page 12)

## Normandie Seized At New York Dock

### Government May Use Ship as Plane Carrier

The fast 83,000-ton French liner Normandie, four French freighters in the Port of New York and 12 French ships in other American ports were seized yesterday by the Coast Guard for the United States Navy.

The Normandie, which is 1,029 feet long from the tip of her prow to the end of her stern and 981.4 feet long along the waterline, is exceeded in size only by the Cunard White Star liner Queen Elizabeth. Besides being one of the most luxurious ships afloat, the Normandie is one of the fastest. Until beaten by the Cunard White Star liner Queen Mary, she held the record for the Atlantic crossing and has traveled at 33 knots. Navy men believe she can attain an even higher speed.

The Normandie, which lies on the north side of her Hudson River pier at Forty-eighth Street, has been tied up at New York since the beginning of the European war. Since last May 15, she has been in the protective custody of the Coast Guard, under an order of the Treasury Department with armed guards aboard her at all times. Her engines have been kept tuned up, and she could put to sea on short notice.

It is expected that the huge boat will be made into a plane carrier.

## Home Defense

### Plans for Children

Kingston's Home Defense Council at its meeting last night formulated the following directions for school children in case of air raid alarms.

All children in the Public, Parochial and Private Elementary Schools shall evacuate to their homes. Children shall be instructed to hurry home at the utmost speed but they should not run. Children who cannot reach home in five minutes shall remain in the school building.

Children in the Myron J. Michael School and the Kingston High School who can reach their homes in five or six minutes shall be evacuated to their homes. All other children shall be kept in the schools and shall be under very strict supervision.

### Alarm Don'ts for Parents

Don't telephone schools; their telephones must be kept clear during raids for official calls.

Don't come to the school for children or try to meet them on their way home.

Don't expect all children to arrive home at the same time.

Don't allow children out on the streets after dark when air raids are possible.

Don't allow children to roam in the streets and don't congregate in front of houses or on sidewalks during an alarm.

"Have faith in the school and municipal authorities. If there is ever a time when faith is especially valuable, it is now."

## County Defense Meeting Is Held

Freeman Photo

The above photo was taken in the County Court House last night when the Ulster County Defense Committee meeting was called to order by Chairman Albert Cashdollar of Woodstock. The meeting was attended by about 60 persons from all parts of the county.

county in case of war emergency will be discussed.

The meeting was told of the work that already has been done by the American Legion in establishing listening posts throughout the county to give warning of impending air raids. These posts already in operation on a 24 hour a day basis, are equipped with telephones and attendants are supplied with forms and complete instructions as to making reports in case of emergency.

Explaining the county defense set-up provision as to villages having their own council, Secretary Simpson said that probably the two largest villages in the county, Ellenville and Saugerties, quite likely would establish their own defense councils, which would be under the town chairman to be named by the county committee and through him coordinated with the county committee. It was suggested that some of the other villages might desire to take similar steps.

Considerable emphasis was laid by Chairman Cashdollar, Secretary Simpson and others on the absolute necessity of full cooperation in all departments of the defense work. To that end it was brought out that the town chairman in every town should be in direction of activities and that town defense sub-committees and their leaders should be fully under his authority and so far as possible confine their work to the duties that had been assigned to them. It was pointed out that should an emergency arise it was essential that there be no confusion, that every worker should know his duties and attend to them when the call came, and that to that end town committees be organized as soon as possible and members be instructed as to just what was expected of them in order to give intelligent and effective service.

## Local 17 to Hold Election by Order Of Supreme Court

### All Present Officers Also Will Give Accounting of Funds Received in Five Years

Members of Local 17, Hod Carriers, Builders and Common Laborers Union will hold a nomination of officers on Sunday, December 28, by direction of the Appellate Division of the Supreme Court, which unanimously ordered such an election yesterday afternoon and thus affirmed the decision of Justice Francis Bergan, who last October issued a similar order on petition of a group of union members.

The Appellate Division in upholding the order of Justice Bergan also directed that the present officers make an accounting of all funds received since reorganization of the Newburgh local in 1936. Members of the union alleged that Samuel Nuzzo, business agent and secretary-treasurer of the local, had failed to account for approximately \$600,000 in initiation fees and dues.

In upholding the order of Justice Bergan, the Appellate court directed that nominations be conducted Sunday, December 28, and that the election be held simultaneously at Newburgh, Kingston and Kerhonkson not less than 15 days or more than 30 days after that date, and that election machines be used.

The order also restrains the present officers from prosecuting disloyal charges against the plaintiffs, or interfering with their employment.

An action for an accounting and also to compel the holding of an election was originally started by 17 members of the union who charged that there had been no election of officers in many years and that Nuzzo had failed to make an accounting of initiation fees

and dues which they charged should have placed some \$600,000 in the union treasury.

The suit was brought against Samuel Nuzzo, Newburgh night club operator, as business agent and treasurer of the union, and also against officers of the union.

At the time Justice Bergan directed the holding of an election and also ordered an accounting of the funds he said that from the facts presented it appears that the union, which supplies the laborers for the big New York city water project on the Upper Rondout and Neversink river, had collected some \$200,000 in initiation fees and dues between 1938 and 1940.

Hyman Glickstein with Charles de la Vergne and Francis Martocci

appeared for the plaintiffs in the case and Henry Hirschberg of Newburgh appeared for the defendants.

Earlier this week, Hyman N. Glickstein, attorney, announced he had filed a petition with Governor Lehman in behalf of a rank and file committee of Local 17 requesting appointment of a special prosecutor to investigate the local's affairs. The governor has made no comment.

## Thousands Are Idle As Result of Cuts In Car Production

(Continued from Page One)

out, however, that the plants would have been closed in any event because most of the units already have equalled the production schedules which, under the new government cut, were set up for December.

The layoffs apply only to automobile production, it was emphasized, employees working on defense contracts not being included.

GM units and their layoff deadlines include:

Oakland, Calif.—Fisher Body and Chevrolet closed last night.

Cleveland—Fisher Body closed yesterday morning.

Norwood, Ohio—Fisher Body to close December 18.

Atlanta, Ga.—Fisher Body to close December 18.

Tarrytown, N. Y.—Fisher Body scheduled to close next Monday.

Linden, N. J.—Assembly plant for Buick, Oldsmobile and Chevrolet to close Monday night.

GM officials said they could give no definite figures on the number of persons laid off because most of the units have defense orders which will keep a proportion of the personnel busy.

"It runs into the thousands, of course, and comes earlier than we had planned," was the comment.

Charles E. Wilson, corporation president, recently estimated that approximately 90,000 to 300,000 GM workers throughout the country would be laid off on the basis of a 54 per cent curtailment of new car output.

## BUY DEFENSE STAMPS

The Freeman carrier boys report a good response in their drive to sell ten-cent defense savings stamps, but they would like to sell many more stamps regularly. A coupon appears daily in The Freeman, which can be filled out and given to the newsboys, who will make the deliveries.

The attack made on our country lends added significance to the importance of the work of these "Special Defense Agents." The government will need money for the defense of our country in waging this war. The stamps cost only ten cents and there are but very few people who cannot afford to buy these stamps regularly.

Every loyal citizen is desirous of supporting those who must do the fighting. Our men cannot fight and should not be asked to fight if they are not furnished with modern weapons of war. Money from the sales of these stamps will help furnish these weapons in airplanes, tanks, ships, guns and bullets.

Buy Defense Savings Stamps and Bonds, buy them now, and buy them regularly.

## A JOB FOR THE YOUNG FOLKS

The national campaign to conserve waste paper in the interest of defense which was officially launched on a state-wide basis this week is one that affords the boys and girls of Kingston and Ulster county an opportunity to do their bit for national defense, and, incidentally, earn some pocket money.

Waste paper is now selling from about 20 cents to 50 cents per hundred pounds in various parts of the country. Boys and girls will be doing a real service to get behind this conservation drive by saving waste paper in their own homes, and asking the neighbors to save the waste paper for them.

This paper when collected can be sold to local junk dealers. According to Leon Henderson, administrator, Office of Price Administration, one of the most important commodity shortages with which his office is concerned is paperboard, used to manufacture the corrugated and paper shipping containers so greatly in demand for defense shipments.

This vital paperboard is made of waste paper such as old newspapers and magazines, old corrugated boxes and waste basket paper.

Here is a real opportunity for the youth of the city to assist the government, and at the same time help themselves financially.

Pick up the waste paper on the streets and from the vacant lots, as well as from private homes and ask your friends not to burn paper, but save it for you. Now is the time to act.

## UNIFORMS

Clothes, as every woman knows, can "do something to you." Uniforms can do more than civilian clothing. There is deep psychology behind the order issued at Washington last Sunday that men in the army and navy departments of the government should appear Monday in uniform.

It is generally disillusioning when a policeman, a soldier, a nurse, a priest, a lodge official or anybody else accustomed to any kind of uniform, appears in civilian clothes. Army and navy morale is probably sustained by uniforms as much as by training and character. Even such simple uniforms as the peasant costumes adopted by the Russians in general have been a powerful influence in molding the nation together and upholding its principles.

It's well not to carry a good thing too far. Most of us hope that we'll never have uniform civilian costumes made obligatory. And yet even that might come, as a help for public morale, before we get through with what we're getting into.

## THANKS TO U.S.O.

A former employee, now in the army, has written a piece for his old newspaper. In it he tells his fellow-citizens how their U.S.O. dollars are spent. It's an interesting story.

The U.S.O. dollars, readers should remember, are those contributed last summer to the fund with which the United Service Organizations—Y.M.C.A., Y.W.C.A., Salvation Army, Travelers' Aid, Jewish Welfare Board

and Catholic Community Service—were going to help build and maintain the morale of the drafted army.

At Fort Worth, Texas, the U.S.O. center is located in a hotel. Hundreds of soldiers visit it on week-end leaves from the various army camps near by. There they may meet friends, take showers, write letters by hand or with typewriter, catch forty winks of needed sleep, read books and current magazines, enjoy some good eats—chocolate cake, sandwiches, coffee, doughnuts—leave or receive messages, and a host of other things. There are dances and other parties. In all these services the U.S.O. dollars pay for necessary materials—soap and towels, stationery, reading material, and so on.

It sounds pretty good. U.S.O. centers elsewhere might vary the list, although the job is about the same everywhere. Contributors to that fund have a right to their pleasant sense of satisfaction.

## FINNISH FRIENDSHIP

A group of Finnish-Americans, celebrating the other day the 24th anniversary of Finland's independence, adopted a resolution pleading for the continued friendship of the United States for their country.

It might have been more in order if they had adopted, at the same time, a resolution urging Finland's continued friendship for the United States, and for the democracy supposed to be represented in both countries.

As far as Americans can see, Finland has done her job and regained her lost territories. We hope that in doing that she has not lost her soul. It will surely be lost if she sticks with Hitler.

As the Japs leave, burning their bridges and secret documents behind them, we wish them a long farewell.

For ways that are dark and tricks that are vain, the slick Japanese is peculiar.

There's no short way to peace; we have to go round the world for it.

Dictators always call things by wrong names.

## BODY NEEDS EXERCISE

When most boys, girls, young men and young women think of exercise, they think of games. Games seem more interesting and teach a coordination of nerves and muscles that cannot be obtained by the ordinary calisthenics taught in the gymnasium, playground, or the military parade ground. In addition, boys and girls playing games get a development of heart and lungs that physical exercises do not give because the game creates a greater need for fresh air because of the great demand for oxygen when huge muscles in the thighs and calves are lifting the body rapidly from the ground. Thus there is no better exercise to develop heart and lungs than running as in games.

Last, but not least, games develop unselfishness, self control and sticktiveness when the emotions are stirred to their utmost.

However, everybody is not young, and unfortunately when early youth is past, many individuals think the days of exercise are also past because they cannot play group games.

That this giving up of all exercise is a big mistake from the health standpoint is pointed out in Clinical Medicine by L. G. Kranz, Professor of Physical Education, Northwestern University, who recalls the old saying "Health comes in through the muscles and flies out through the nerves." He points out that the only time men and women think of physical fitness is when something drives them to it such as getting fit to play on a varsity team or in times of war. When the body gets no exercise, it degenerates.

Professor Kranz suggests that something to give the drive toward exercise other than the varsity team or war is necessary for children so that when they are past their first youth and approaching or at middle age, they will take daily exercise because of the joy of living that comes with being able to do things.

"Instead of having children, early in life, think of skill in sports. I would have them understand that skills and performances are only temporary objectives; that even after skills are no longer worth using, the individual must still live with the body that is his or hers or puny."

It is worth while for all of us to remember the words of Gladstone, "All time and energy spent in training the body pays a larger rate of interest than any other investment."

## GRANGE NEWS

## Rosendale Grange

The regular meeting of the Rosendale Grange No. 1501 was held on Monday evening, December 8, with Master Floyd Deitz, presiding. The meeting was a very interesting one and the coming year promises to be a busy one for every member.

On Thursday, December 18, there will be a card party in the Grange hall, members and friends are invited. Refreshments will be served after the games.

On Monday, December 22, the Grange will have its annual Christmas party which will also honor one of its younger members, John Bordenstein, Jr., who has been inducted into service. Every one is asked to bring a ten cent gift for under the tree and a gift for the less fortunate. Every year a number of gift baskets of food-stuffs are given away. The refreshments will be in the form of pot luck. Each member attending will bring sandwiches, cake, pickles, salads or anything suitable for the evening refreshments.

The Literary hour commemorated the "20th Anniversary" of the Rosendale Grange and was in charge of the worthy lecturer, Arthur Hahn, assisted by Past Lecturer Henry Mollenhauer. There were a number of charter members present and everyone enjoyed hearing about the struggle to get Rosendale Grange started, but it has progressed ever since and is one of the largest and active Granges in the county.

The program was as follows: Song—Aunt Dinah's Quilting Party. Reading of minutes of first and second meetings — Mrs. C. I. LeFever, Jr. Address — Brief History of the Grange .... Past Master C. I. LeFever, Jr. Recreational number — Mrs. Evelyn Kennedy. Address by "Grand-Dad" of Rosendale Grange .... Past Deputy J. Wells Weaver. Song—Loves Old Sweet Song .. Grange. Presentation of silk flag to the Grange, a birthday gift from Mr. and Mrs. Neal Hotelling — Neal Hotelling. Song—America ..... Grange. Poem—The Need for Men .... Mrs. Floyd Deitz. Roll call of officers—Their plans and cooperation for coming year. Closing song—"America the Beautiful."

At the previous meeting the newly elected officers were duly installed by Mrs. Evelyn Kennedy, acting as installing master assisted by Mrs. Neal Hotelling, marshal; Mrs. Henry Mollenhauer, assistant marshal; Mrs. Edward Brodsky, organist; Mrs. C. I. LeFever, regalia bearer, assisted by Neal Hotelling. Pianist, Mrs. Albert Myers and soloist, Mrs. Charles

The officers installed were: Master, Floyd Deitz; overseer, Edward Brodsky; lecturer, Arthur Hahn; steward, Fred Roeltgen; assistant steward, Ed Wood; chaplain, Miss Norma Conklin; treasurer, Walter Paradies; secretary, Mrs. Evelyn Kennedy; gate keeper, Ed Wood, Jr.; Ceres, Mrs. Ed. Brodsky; Pomona, Mrs. Jennings; Flora, Miss Hazel Conklin; lady assistant steward, Mrs. Fred Roeltgen; executive committee, Henry Mollenhauer.

Pomona Grange held its December session at the Rosendale Grange Hall Friday, December 5, afternoon and evening. Pomona officers were installed in the afternoon by State Overseer Sherwood assisted by the Rosendale installation team.

There will be a New Year's Eve party and dance in the Grange Hall with music for old-fashioned and modern dances. Further details will be announced later.

On January 13, the Craftsman's Minstrels of Kingston will be given in the hall. These men need no introduction in this vicinity. They give a good clean show with plenty of laughs. Keep this date in mind and come and enjoy this annual minstrel show.

## NEW PALTZ

New Paltz, Dec. 12.—The Double Forty Club of the Methodist Church sponsored an illustrated lecture on the Holy Land Sunday evening in the church. The lecture was given by Guy P. Rigand, superintendent of schools of Spring Valley. Prior to the war Mr. Rigand conducted tours to the Holy Land making a careful study of the habits and customs of the people. As a result he has many beautiful slides on the subject.

The first indoors match took place at New Paltz rifle range at the local high school Monday night. A 21 shot prone 50 shot indoor match with Highland Falls, New Paltz 792 and Highland Falls, 777. The local club plans to affiliate with the National Rifle Association, Washington, D. C. in the near future and through the affiliation will compete in postal matches with rifle teams all over the United States. New members were added to the club Monday night.

Miss Cornelia DuBois entertained the Monday Card Club the past week.

Essence of Unity Is All Shall Be Treated Alike, but They Must Also Do Their Parts

By DAVID LAWRENCE

Washington, Dec. 13.—The essence of national unity is that all citizens shall be treated alike by their government.

President Roosevelt wants production. The industrial management of American companies are patriotic but they are today being distrusted and not being given a square deal by Mr. Roosevelt.

The President has decided to trust labor to handle labor disputes by means of a voluntary plan and he has intimated that legislation of a restrictive character can be shelved. But he has not accompanied this with a statement favoring the repeal of the legislation now on the statute books which permits seizure of plants whenever management refuses to accept union demands that are backed by governmental agencies such as the mediation board.

If the President can trust labor, why should he not trust management? If there is to be no restrictive legislation on labor unions, why shouldn't all labor legislation that restricts management be removed from the statute books? Isn't management to be trusted? Isn't management loyal in war time?

These are the questions heard among industrial managers, who are amazed at the President's reversal of his attitude concerning labor legislation. The defense made of Mr. Roosevelt's position is that he thinks a voluntary arrangement between labor and management can be made but if he has so much faith in that kind of procedure, he can be appealed to for similar faith and confidence in the key executives of America on whom the success of our production effort now rests.

The essence of democracy is free criticism. The President in time of war is still subject to the corrective processes of public opinion. To see mistakes being made and to conceal them on the ground that the administration must be spared criticism at this time is not to do a service to the hundreds of citizens under arms who want war weapons as quickly as possible, or the boys of the United States navy who so badly need the bombers and fighter craft which they have not yet been furnished.

To condone mistakes is to increase the casualty lists of America by letting blunders go uncorrected.

The industrial mechanism of America should be the most efficient in the world. But the President, while exhorting management to do its utmost, has not played fair with management. His handling of the recent strike in the coal mines has been played down in the news. But it will long remain as one of the most disappointing episodes in American history. For after a C. I. O. leader defied him twice and refused to order union workers in the commercial mines to go back to their jobs—for they themselves had no grievances and already had the closed shop—the President made it possible for the C. I. O. leader to win out. He made it possible also for a government official to

leave his office for a few days and to announce that he was a private mediator—a subterfuge that does not help to instill confidence in the sense of fair play of the government which resorts to such subterfuges.

While it is true that 95 percent of the men in the coal mines were unionized and that a closed shop does not alter management's relations to the minority of 5 percent very much, it is a fact that an important principle of monopoly is established by the roundabout maneuver of an administration which only a fortnight before publicly declared against the closed shop or union shop.

How can industry feel that it is getting a square deal after it sees the C. I. O. miners union rewarded for its strike and for having deprived America of many thousands of tons of precious coal in a time of critical emergency?

Now comes also the question of double time. The C. I. O. leaders, while professing to be sympathetic with the defense program and while promising the utmost cooperation, are asking that Saturday and Sunday work be compensated not at the time-and-a-half rate but at double time. The employer is taxed heavily on his profits and every important executive has had a severe wage cut due to taxation and more such cuts are coming. But labor unions pay no taxes and the tax rates for the workers have not been raised by anything like the percentages applied to managers.

Troops and sailors do not get extra pay for Saturday and Sunday work. Executives who work long into the night do not get overtime, and yet union labor is asking for double time on defense contracts in the Detroit area. The President has asked for a seven-day week, which may mean 168 hours. This would be four shifts of 42 hours each or two shifts of 42 hours, existing law requires time-and-a-half for overtime, but the unions in Detroit want more.

Problems like these may possibly be solved by negotiation but work stoppages and friction happen nevertheless. There are about 40 national unions comprising the C. I. O. and about 106 comprising the A. F. of L. These leaders will be asked to enter into binding agreements to prevent strikes. But wildcat strikes have gone on in the recent past and there is no penalty applied. The insurrection in the commercial coal mines, when workers left their jobs without a strike call last month, has not had one single word of denunciation from the President and no steps have been taken to punish those responsible for it.

But if voluntary cooperation is to take the place of legislation, industrial managers are entitled to have removed from the statute books the power to seize their plants, and the President owes a public apology to the shipbuilding company at Kearny, N. J., which has had its business wrecked by an arbitrary order from the White House—business which relied in vain on principle and on the fair play of its government.

## Washington Daybook

By Jack Stinnott

WASHINGTON — Just when Washingtonians were convinced that the nation's capital was becoming the world center of bedlam—war broke loose.

It caught thirty-odd thousands of official and unofficial Washington at their favorite Sunday pastime, watching a "pro" football game. The news, ten minutes after it was flashed over the Associated Press wires, reached a group of F. B. I. officials. It was called up over two rows of spectators by a messenger who had taken a telephone call from headquarters. Like waves from a pebble in a puddle, the news circled the field.

Within a few minutes the half was over and the stands were deserted by thousands as Army, Navy and other government officials rushed to report for duty.

Lights went on in the early afternoon winter dusk in the White House, the State Department, OPM, the Army and Navy buildings, and many of the embassies—to be dimmed only by daylight.

Light went on around the Japanese embassy, too, but a different kind of light. It was the flicker of a big bonfire that rose from the backyard of the embassy on Massachusetts avenue as officials heaped box after box of records and papers into the flames. The avenue became a glut of traffic, as the curious piled in to see what was going on. And on the roof, as long as the light lasted, a son of Nippon took pictures of the crowd.

Overnight, the capital, which heretofore has seen uniforms on only the non-commissioned officers and men of the armed forces, took on the appearance of an armed camp as the thousands of Army and Navy officers on desk duty here went into uniform. Only those who were here more than 20 years ago when the hordes working in Washington were ordered "out of uniform" have any basis for comparison of the warlike appearance of the capital.

The utter confusion of commentators who for days had been predicting that nothing would happen in the Pacific was matched only by the surprise of those who had been saying that something would.

DIGGING down through the clutter of predictions from government officials, I found one for the same man who wrote a report for the President, saying that the war on the Russian front would outlast the winter. (This minor government official, of course, remain anonymous) said this time

was that the Japanese "would precipitate a war with the United States." He called it hara-kiri (recognizing the Japanese as "an honorable suicide" much more preferable than living in dishonor). He said it was the only way Japan could "save face" both with her allies and her enemies and that to the Japanese this could be much more important than military considerations.

So far as wartime personnel is concerned, Washington and the nation are far ahead of that spring in 1917. There are approximately a million persons in the District of Columbia and its suburbs, more than twice what it had 20 years ago before most of the World War expansion had been eliminated. There are nearly a quarter of a million persons working for the government here—and throughout the country and foreign lands more than 800,000 additional. There are now about 2,000,000 persons in the armed forces. Another million enlisted for civilian defense and that figure is expected to double immediately.

Housing and office space here are such a premium that the stories of overcrowding and high rentals would fill a volume. On week-ends when soldiers from nearby camps and government employees are on the move, it is impossible to get within a block of Union Station—only a few years ago ridiculed for its size as something to which the city could never grow up.

Is it any wonder that Washingtonians are saying that the capital is far ahead, in bedlam, of what it was when World War 1 broke out?

## POST PARTY HINTS

When a party is successful to the point that guests forget about the hour, it's a sure sign everyone is having fun.

But it is a bit hard on the hostess who may feel like jumping right into bed after the last goodbye. But what about all the used glasses, dirty ashtrays and the general disarray?

She can simplify tomorrow's tasks by filling the glasses with cool soapy water and emptying the ashtrays before she hops into bed and she'll have a much easier job in the morning.

## Ascension Church Will Sponsor Cheer Social, Friday Night

The Episcopal Church of the Ascension, West Park, is sponsoring a social party to raise funds for bringing Christmas cheer to the less fortunate folk residing in West Park. Esopus and Ulster Park. Each year this is done and some 30 families last year were made more happy at the Yuletide season.

This year, the social will be held Friday evening, December 19, commencing at 8:15 o'clock, in the Ascension Parish House. There will be a program, consisting of a one-act Christmas play, "From Our House to Your House," by Elsie Hubachek; and a musical skit. After the program, which runs for an hour and a half, there will be games for young and old. Those who wish to play cards, either bridge or pinocle, may do so. Please bring your own cards.

Those taking part in the program are: Mr. and Mrs. George Hard, Mr. and Mrs. William H. Jordan, Miss Beatrice Gullian, Harold Jones, Mr. and Mrs. Edward Cochran, Mrs. John Zuercher, who coached the last successful play, "Bringing up Mother," will again have charge of this program.

## Christmas Party Is Scheduled For Mayor's Cheer Fund

Monday evening, December 15, the annual Christmas cheer party will be held at the municipal auditorium. The committee has planned an evening of fun and entertainment for all.

The doors will open early and a program of music by the American Legion sponsored band under the direction of Sal Castiglione will be given from 7 to 8 p. m. Promptly at 8 o'clock the main show of the evening will be presented. Dick Obenaus, who had charge of the show until his sudden illness, had arranged a fine program. However, at this time all of the acts cannot be definitely scheduled.

Those who will take part are the Rondout Valley Glee Club of Kerhonkson, R. B. Smith, Jr., Patsy Costello, Lorraine Gulsiana, Bill Crosby and son, Dan Bittner, two dance groups from the Helen Cashion Studio, and the Jean Coles Troop, consisting of a five piece band and comedian. Andrew Davis will be present as Santa Claus. Masters of ceremonies will be Mayor Conrad J. Heiselman, John Cashion, Mrs. Stanley Matthews, chairman of the cheer committee; Dick McCarthy and David Murphy.

In addition to the American Legion Band there will be several other orchestras to play for dancing. The Boy Scouts have generously offered their services as ushers for the evening. Tickets at a nominal fee may be obtained at Dederick's Drug Store, both O'Reilly stationery stores, Flanagan's, Connelly's Drug Store, Walker's Broadway Pharmacy, Rafalowsky's and Weber's drug store, or at the door.

All proceeds will augment the Mayor's Christmas Cheer Fund for the less fortunate children in the city.

Wood takes the part of Father Mohr, writer of the hymn; and Glenn Knapp plays the part of Franz Gruber, composer of the music of the hymn. Other characters in the play are taken by John Fitzpatrick and Doris Barnum. Douglas Kennedy is the director.

The church was decorated with baskets of chrysanthemums, carnations, rhododendron and palms. Miss Dorothy Freer, organist, played the following selections: "Idyl," "Tendresse," and "I Love You Truly."

The bride, who was given in marriage by her father, wore an aquamarine crepe traveling ensemble with dubonnet accessories, and a corsage of orchids. She was attended by her niece, Miss Edella J. Griswold, as maid of honor. She wore dusty rose crepe gown with navy accessories and a corsage of rose buds. Ralph Lynam was his brother's best man.

Immediately following the ceremony, a reception for 50 guests was held in the church annex, which was decorated with white wedding balls, flowers and rhododendron. After the reception, the couple left for a wedding trip to New York city.

## To Give Cantata In Dramatic Form

December 21, at 8 p. m., an unusual dramatization will be presented at the First Reformed Church. Two choirs of 40 voices in all will sing the beautiful cantata, "The Story of Bethlehem," by J. H. Maunder.

This work has been sung as a straight concert form cantata by the choir of the church in the past. This year the group will present it in the form of a medieval miracle play dramatizing the entire story although all parts will still be sung. There will be special stage effects and colorful costumes.

Harrison Slocum, tenor, will be the guest artist. Mr. Slocum of Newburgh, sang with the church choir at Easter when they gave Stainer's "Crucifixion." In addition there will be several soloists from the church choirs.

Mr. and Mrs. Hugh Quigley of 7 Burnett street, announce the approaching marriage of their daughter, Mary, to James A. Lynch, son of Mr. and Mrs. James J. Lynch of 24 O'Neil street. The wedding will take place Sunday afternoon, December 28, at 3 p. m., in the Holy Name Church, Wilbur.

## SOUP ACCESSORIES TO ENHANCE SIMPLE RECIPES SUGGESTED IN NEW BOOKLET

A delicious soup is even more delicious and certainly more attractive if it is cleverly garnished and accompanied by tasty accessories. The latest Freeman cookbooklet on Soups, presents an entire section of recipes for beautiful little accessories such as: toasted almonds; balls of crackers, eggs, cheese, marrow, rice, noodles, potatoes or spinach; stars of noodle dough; croutons cut or rolled; toast and cheese sticks; dumplings; floats, custards, and forcemeats. The simplest consommé becomes an artistic creation with the right kind of a fancy garnish—a dish for the most elaborate dinner party.

Here are two of the suggestions from the Soup Book that you can try until you get your own copy:

**Cheese Balls**  
¼ cup butter  
½ cup boiling water  
¼ cup flour  
¼ teaspoon salt  
Dash cayenne  
Dash paprika  
3 eggs  
¼ cup grated American cheese

Combine butter and water, cook for 2 minutes, add flour and seasonings and boil until mixture forms a mass in the center of the pan. Cool slightly, add unbeaten eggs 1 at a time, beating well after each addition. Add cheese and drop from a teaspoon into hot fat. Drain and serve immediately. Makes 2½ dozen balls.

A clever and flavorful garnish for your Cream of Corn Soup is fluffy crisp popcorn. There's an entire section on accessories and garnishes in the new Soup Cookbooklet.

The Y. W. C. A. announces the following schedule of activities for the week of December 15:

**Hat Wrack**—A New Hampshire motorist lifted himself painfully from the debris of a head-on collision, stomped over to where the other driver was nursing bruises, shook his fist under the fellow's nose, and demanded angrily: "Where's my hat?"—News Week.

Visitor—I would like to see the Judge, please.

Maid—Sorry, sir, but he is at dinner.

Visitor—But this is important. Maid—Can't be helped, sir. His Honor is at steak.

#### Needs and Creeds

There are little creeds for little souls. And larger creeds for others. And what fits me, or what fits you.

May not fit all our brothers.

But if my soul and yours and his.

Each finds a sure content.

Then we shall know, beyond a doubt.

Which creed for us was meant.

An office worker in Binghamton, N. Y., who was not feeling well, went to the doctor to find out what was the matter.

Doctor—Buy a car and get out more. You ought to take off pounds of flesh.

Office worker (later on, reporting his success)—I bought a car and got out more. I got out six times between Binghamton and Oswego, and took off flesh in four different places. Once I got out through the windshield. That seemed to take off the most flesh.

Do today what seems to be right, regardless of peace or war.

The man who drinks and drives is an even greater enemy to others than to himself.

There are several writers by the name of Wells, but the most famous of them all is H. G. Wells, the British historian and writer of fantastic fiction.

That is one reason why a certain librarian was very eager to please a patron the other day who came up to her desk and asked her about a book.

Patron—I want a book on Wells.

Librarian—Did you want an autobiography?

Patron—Huh? (by way of making himself clear)

Librarian—Did you want something on his life?

Patron—(Unable to conceal his impatience any longer)—Lady, I just want to know how to dig 'em!

British rationing of gasoline to private motor car owners is on the basis of horsepower, allotments for commercial vehicles are made on the basis of weight. A private car of 24 British horsepower is allowed 10 imperial gallons of gasoline per month (top ration for any size car). Such a ration in this country would allow monthly travel of 125 to 175 miles.

In moments of depression some of us think we are no more popular than a parking meter.

Hearing someone prowling about downstairs, the timid husband seized a candle and proceeded to investigate, while his even more timid wife buried her head beneath the bedclothes.

Suddenly her husband came upon a burglar, who covered him with a revolver.

"Oh, don't take any notice of me," said the timid man quickly. "I'm only walking in my sleep!"

Accidents kill more people between the ages of 3 and 20 than any disease.

He called for continued activity in the coming year and pointed out the opportunity league members have, collectively and individually, to give all-out aid to country and communities in this national emergency.

M. M. Peck of the New York Fire Insurance Rating Organization, Kingston, whose classes on the National Electrical Code last winter and spring proved most helpful, offered his services to the league for continued information on new wiring developments, including any new materials and practices which would be governed by the nation's priority on essential defense materials.

Members of the Ulster County Electrical League were present from Kingston, West Hurley, Woodstock, New Paltz, Creek Locks, Bearsville, West Shokan, Saugerties, Accord and Gardiner.

## THE PHONE BOOTH MURDER

by Phoebe Atwood Taylor

Chapter 22

### The Doanes Confused

"THAT'S Mrs. Hingham's name," Freddy went on. "You see—this is rather complicated, I'm afraid—but people always call her by the name of the husband who bought her the opera company. I don't know why. I presume it's because she was known to more people as Elissa Hingham. She was Mrs. Hingham when she first came here, and we've never called her anything else."

"That still," Asey pointed out, "don't solve the problem of Horace's last name."

Freddy bit her lip.

"Honestly, I can't remember it! Here's Mother," she called to Mrs. Doane, who was just coming along the hall from the kitchen.

"Mother! Mother, what's Horace's last name? Isn't it something like Prang?"

Mrs. Doane looked startled.

"Your father asked me that when they came this year, and I really meant to find it out and learn it. We shouldn't call him Horace all the time, and Mr. Hingham would never do— isn't it Anderson, or Patterson, or Peterson? I think it's Patterson. Remind me that I must find out and learn it, Freddy!"

Asey suggested that they might always look in the hotel register.

"You got one, ain't you?"

"Of course!" Freddy went over to the desk and picked up a tooled leather book. "Here. They came two weeks ago. Mrs. Hingham signed. Elissa Hingham—well, what do you know, she forgot to put Horace down! Well, anyway, whatever his last name is, he's Elissa Hingham's husband, and he'll be sure to know why Ann was dressed up. Mother, it wasn't Miss Olive at all, but Ann Joyce dressed up in her clothes!"

"What!" Mrs. Doane almost slid into a chair, and for the first time since Asey had met her, she smiled a genuine smile. "It's not Miss Olive? Oh, that's the best news I've had—of course, the smile disappeared as she added hurriedly, 'I'm sorry about Ann Joyce! That will only add size to the headlines, what with her being on the stage. But anyway, she wasn't staying here! How did she happen to be dressed up in Miss Olive's clothes? When did she come here? How—'"

"Let's get out of this hen-party powwow," Cummings said. "Maybe I should call it a powwow—get that, Asey? That wasn't bad. Powwow."

"It was terrible," Asey told him, "an if you want to know the truth, I can't think of anything but a lot of howls, myself."

"Trouble is, you're trying too hard," Cummings said. "You won't see the trees for the forest. Come up along the hall to this little smoking room." He led the way to it. "Now, sit down and listen to me. You thought I was just taking cracks at Rankin because I don't like him. But moment when I said I don't trust him. And let me tell you this. No stray pot shot from Washy Doane or anybody else killed that girl. That was a neat, cold-blooded, well-thought-out bit of shooting. Someone stood behind her, Asey, took very, very careful aim, and shot her through the heart. She couldn't have suspected what was coming, and she certainly never knew what hit her. And your friend Rankin—"

**Crack Shot**

"WHAT about him?" Asey asked as the doctor relighted his cigar.

"Remember the Pocket Home Guard they organized last fall, about the same time all those women started up their Rifle Corps? Were you here on the Cape Labor Day? I didn't think you were. Well, to stir up enthusiasm, the Home Guard and the Rifle Corps had a shooting match. And your friend Rankin won it with his little pistol. The girl was killed by a good shot. Your friend Rankin is a good shot."

"So, presumably, is Washy Doane," Asey said. "At any rate, he practices."

"But Ann Joyce," Cummings retorted, "was never Washy Doane's secretary! Instead of howling and whatling around, you get hold of Rankin! Find out where he was and what he was doing from four till six."

"From four till six?" Asey said. "You mean, she might have been killed as early as four, Doc? Because Miss Olive used the phone at half-past four or so, an' Freddy used it later. You sure about your timin', Doc?"

"Of course I'm not sure!" Cummings said testily. "If I've said it once, I've said it a thousand times that you can't look at a body and say that person died at two minutes and sixteen minutes past two! My guess is between four to six! You certainly can find out from someone when the Joyce girl came here, and who saw her last, and all that sort of thing. You can

make some time estimate yourself, on the basis of her coming here."

"There's a little problem here, Doc," Asey went on, "that maybe you ain't considered. That's what Rankin says he gave Miss Olive two nickels to phone with. An—"

"What have Rankin's nickels got to do with the time Ann Joyce was killed?"

"Wa-el," Asey said, "he says he gave 'em to her, an' Freddy says she seen Miss Olive leave. But was it Miss Olive, Doc? Was it her, or the girl dressed up like her? Jennie an' I take it for granted that Miss Olive we seen at the four corners. But was it? We don't know her so well we could swear up and down it was her. Lots of folks has seen Miss Olive, but nobody's seen the girl Ann Joyce. Now, people know pretty much what Miss Olive wears. They see her coat an' they take her for granted. Nobody's goin' to begin any intensive examination of her, like you did. Now, Doc, s'pose the Joyce girl's been goin' around all day as Miss Olive?"

"What? Asey, you're crazy!"

"Could be," Asey said. "Maybe we seen the girl dressed as Miss Olive, actin' like her. She could have driven back here an' been killed like we figured at first, around six. Until Miss Olive herself comes back, an' we can find out from her just where she really was, we always got the possibility that sometimes maybe folks who thought they was seen Miss Olive was really seen Miss Joyce."

"My God!" Cummings said. "I never thought of that angle—let's find Miss Olive! Where is she?"

He went to the door. "I'll bring Freddy here. She ought to know where Miss Olive is."

Freddy shook her head when Asey told her he wanted to find out about a few odds and ends.

#### Radio Program

"I'll gladly tell you anything I can, but don't expect me to be too alert, will you? I'm just getting myself adjusted to all this. And Mother's just confessed she moved the body from the phone booth, and Father's confessed he was shooting at his target this evening—he knew Mother was out, and that he'd never hear. He even says he took a practice shot past Alfred, too! Alfred's Lady Boop—I mean, Mrs. Clutterfield's chauffeur."

"I know him well," Asey said. "Why'd your father want to scare him?"

He claims he couldn't resist Alfred's broad beam," Freddy said. "Anyway, Mother's giving him hell, and we're all awfully confused. And none of us can remember seeing Ann after she was here this morning. Mother was at the desk till three, and I was there from three till the lights went out. And we know Ann never came through the living room."

Asey suggested that there was always the possibility of Ann's having entered the Inn by a rear door.

"I suppose so," Freddy said, "but I don't see why she should come in the back way! She never does. Of course, if she snaked up and swiped Miss Olive's clothes to dress up in, as Mother and I suspect she must have, maybe she did come in the back way. I don't know. I'm so confused I can't even guess what might have happened!"

"Where's Miss Olive?" Cummings asked. "Do you know where she is tonight?"

"Now there," Freddy said, "is something Mother just asked me. She just went off, that's all I know."

"Didn't drop any hint as to where she was going?" Asey asked.

Freddy shook her head.

"S'pose," Asey said, "we phone around to places where she might be. Will you do that, Freddy? An' Doc, I hear a noise out there that suggests Carey an' Hanson's crew. We better see 'em."

Just one thing first," Cummings said. "There was Rankin this afternoon, Freddy's say, from three o'clock on? Do you have any idea?"

Freddy sighed.

"I certainly do! He and Lady Boop and I listened to the radio in the living room."

"You don't mean," Cummings sounded incredulous, "that all three of you were there last afternoon?"

"Weren't we just?" Freddy said. "I never put in such an afternoon! You see, they were both really waiting to hear that special broadcast of the King and Queen and the President—probably you heard that. Everyone listened. And to kill time," she went on as both Cummings and Asey nodded, they bickered. Lady Boop wanted to listen to the continued stories she's so crazy about, and Rankin wanted war news and some symphony orchestra. Between the two of 'em, was almost frothing at the mouth!"

Donald F. Bishop of West Shokan was re-elected president of the Ulster County Electrical League at the annual dinner meeting and election of officers which was held at Joe Hill's Hotel, Rosendale Thursday evening. Joseph O'Connor of Creek Locks was also re-elected as vice president and Henry Goldworthy of Kingston as secretary and treasurer.

Members of the Ulster County Electrical League were present from Kingston, West Hurley, Woodstock, New Paltz, Creek Locks, Bearsville, West Shokan, Saugerties, Accord and Gardiner.

Several members who were unable to be present at this meeting were attending meetings of community defense organizations.

# Middies Defeat Kingston, 35-31; Recs Lose to Pittsfield, 61-53

## Local Cagers Are Victims of Fourth Quarter Splurge

## Maroon Tossers Look Good in Initial Game; Play Port Jervis Here Thursday Night

Middletown High School's basketball team took first place in the DUSO League last night by scoring a 35 to 31 victory over Kingston at the Middle gym. The Middies did it the hard way after trailing the Maroons for the better part of the contest.

An estimated turnout of 700 spectators watched these two high school clubs in action and they concluded that both will have something to say on winning of the league title this year.

Kingston, engaging in its first game of this season, played remarkably well, much better than the sport experts anticipated. The cagers of Coach G. Warren Kias had a 30 to 21 lead going into the final quarter.

However, it couldn't have been in the books for Kingston to come through victorious. In that final session Middletown staged a big rally and took the game right from under the Maroons' nose. Middletown tallied 14 points in the final quarter to the Kiasmen's meagre four.

It was all Kingston until that ill-fated final stanza. At the end of the first quarter the Maroon quintet had a lead of 12 to 6, the second period by 16 to 4. Holding little regard for Middletown's victory over Newburgh last week, the Maroons took a 28 to 21 margin in the third period and it looked quite safe for the Colonial City tossers.

Shots by Bill Vernooy and Tony Capozella started the fireworks for Coach Mac Wagner's aggregation in the fourth period. These two boys accounted for 10 points to give Middletown a 31-30 lead. Newman rushed in for a layup making it 33-30. Ed Allen completed a foul shot for the Maroons' final point. Ellerlin drilled a hook basket giving Middletown its 35 to 31 triumph.

It was another big night for Bill Vernooy who collected 10 points for Middletown. Last week he played a big hand in defeating Newburgh. Captain Ray Herrick topped Kingston's scorers with nine markers. Rod Sagendorf and Ed Luedtke tallied six apiece.

The Kiasmen will make their

first local showing Thursday, December 18 at the auditorium in a league encounter with Port Jervis.

The Varsity took a 35 to 17 lead in the first two periods of play. The final half found the Y. M. C. A. team still out in front by a comfortable margin.

The Crackers, after taking a 15 to 11 lead in the first two quarters kept on and scored a 35-24 victory. Tom O'Hara packed the winners with 13. Murphy had 10 for Highland.

## Charlie Neff Collects 23 Points for Winning Five; Juniors Also Triumph

The High Falls Firemen opened the basketball season last night by trouncing Elstons 48 to 26. Charlie Neff ran wild for the winners, scoring 23 points. Schoonmaker followed with 13.

High Falls took the lead at the start and never relinquished it. With Neff scoring shots from all angles the Elstons were on the short end of a 23 to 10 score at the finish of the second quarter. Hughes and Coulling did the best work for the visiting team, scoring seven and six points apiece.

Next week the Firemen will play the Ellenville A. C.

In the preliminary last night the Firemen Juniors defeated Port Ewen to make it a complete victory for High Falls by the score of 23 to 19. It was a close game all the way.

Sutton scored nine point for the hose handlers while J. Pattes collected six for Port Ewen.

## Brooklyn Acquires Vaughan of Bues For Four Players

Brooklyn, Dec. 13 (AP) — Help pull your ball club out of the baseball doldrums—and get traded. Where else could it happen but in Brooklyn?

Leland Stanford MacPhail, boss of the babbling Brooks, yesterday carried the idea a step further and swapped four members of the first Dodger World Series team in 21 years for shortstop Arky Vaughan of Pittsburgh.

The National League champions gave up Luke Hamlin, owner of the home-run pitch; Pete Coscarart, light-hitting infielder; Jimmy Waddell, outfielder-first baseman and Babe Phelps, self-grounded catching blimp.

Still rumored on the trading mart are Cookie Lavagetto, twice in the past two years the National League's third baseman in the All-Star game, and Dolph Camilli, slugging first baseman and the senior league's most valuable player of 1941.

Vaughan, 10 years a shortstop with the Pirates, probably will be a third baseman for the Dodgers, especially if MacPhail can find a left-handed pitcher for whom he can trade Lavagetto. During his decade in the league, Vaughan has hit .309.

Philadelphia — Johnny Forte, 130, Philadelphia, outpointed Don Fiantini, 128, Reading, Pa. (8).

Minneapolis — Charley Parham, 142½, Milwaukee, stopped Don Espensen, 144½, Minneapolis (6).

## Financial and Commercial

New York, Dec. 13 (AP)—The stock market today finished the first week of World War II on a note of selective recovery although suffering the severest average casualties for any six successive sessions since May, 1940.

Steels were out in front at the start of the brief proceedings, along with scattered favorites in other departments that stand to benefit from the nation's swiftly expanding armament program. While many issues lingered in the minus column at the close, gains of fractions to a point or more were well distributed.

Some rails, coppers, oils and air-ports were in the rising process while motors, rubbers and mail orders never were able to register worthwhile progress. Stocks dealings were fast at intervals and, despite frequent slow-downs, the two-hour volume was around 600,000 shares, largest for any Saturday since the latter part of last December.

Talk of complete cessation of automobile manufacture for civilian use, with factories going on a full war production basis, again chilled issues in this group. Chrysler and General Motors dipped to new 1941 bottoms.

Goodyear, Goodrich and U. S. Rubber never got anywhere in particular as raw rubber imports from the Far East were halted and tire dealers were warned they might not be permitted to replenish their stocks under the rationing system now being developed.

### OXFOLM RESIGNS

### ASHOKAN RESERVOIR

Low; New Yorkers Asked to Conserve

While the giant Ashokan reservoir has considerably more water in storage now than in other low period stages, Commissioner Patrick Quilty has asked that people of Greater New York conserve water and use water "wisely."

There are now more than 156 billion gallons less than normal in the city's system and reservoirs are only about one-third full.

The normal supply of the Catskill-Croton systems provides the city with 253 billion gallons and the existing supply had dropped to approximately 97 billion gallons.

Average daily consumption for New York city in the first 11 months of the present year was 924,000,000 gallons, slightly above the average for last year. The new Delaware system, now under construction, is expected to provide 170,000,000 gallons daily when the first stage is completed in 1944.

Little rainfall this fall has gradually drained the big Ashokan reservoir of its storage but the reservoir is not down to the low mark of 1926 when the basin contained but 16,000,000,000 gallons.

In November, 1939, there was but 68,000,000,000 gallons in the reservoir but rains shortly thereafter raised the level considerably. The November 1939 low was considerably below that of 1938 when in mid-September the reservoir was down to a low point.

Notices have been posted in New York cautioning residents to conserve water and to eliminate waste.

From observation of the Ashokan basin at the present time it would appear that the storage now in the basin is about 10 per cent less than in 1939 but the level is not down to the record low of 1926.

Will Forego Banquet And Buy Defense Bond

Wiltwyck Hose Co., will forego its annual banquet this year and the money thus saved will be devoted toward the purchase of a defense bond.

The banquet committee met with the officers of the company Friday night, when the decision to pass up the banquet this year was arrived at. The members felt that in view of the war conditions and the needs of the country this was the patriotic thing to do.

The annual meeting of the company will be held on January 15 and following the meeting light refreshments will be served.

The Wiltwyck Co. already has purchased one \$500 defense bond.

Police Seek Man Whose Auto Hit George H. Kline

Police authorities were busy today trying to trace the driver of the automobile that struck down George H. Kline, 57, of 94 Greenkill avenue, at 8:45 o'clock Friday night. Kline is reported in critical condition at the Kingston Hospital where he was taken in the Conner ambulance. He was struck on Greenkill avenue.

Dr. C. B. Van Gaasbeck, police surgeon, who attended Kline, reported that the injured man had suffered compound fractures of both legs; four broken ribs, internal injuries, concussion of the brain, with a possible skull fracture.

At the hospital today X-rays will be taken to determine the full extent of Kline's injuries. The police department was notified last night that Kline had been struck by a hit and run driver, and left lying in the road.

## Murphy Seeks Less Local Grass Fires

Fire Chief Joseph L. Murphy today issued a request for the co-operation of every citizen, and especially children, to prevent grass fires in Kingston.

The chief called attention to the fact that in this present emergency the fire department would be kept busy in home defense plans and the apparatus should not be called out on unnecessary calls.

In many cases grass fires can be extinguished with the aid of garden hose. With proper care on the part of every one there would seem to be no necessity for grass fires, said the fire chief.

No City Blackout Until Christmas Season Is Ended

No test blackouts will be staged in Kingston until after Christmas it was announced Friday night by the local Home Defense Council, and no test may be held unless the state director or his representative is present.

The following telegram received from General O'Ryan, director of Civilian Defense, was read at the meeting:

"It is directed that ample prior notice of the proposed conduct of a test blackout be communicated to this office in order that the state director or his representative may be present."

"No test is to be undertaken without adequate preparation therefore. The public should be fully informed of the test character of the proposed blackout."

The local defense council also instructed Mayor C. J. Heiselman to call a special meeting of the Common Council Tuesday evening to consider home defense measures. The council will be asked to authorize the Central Hudson Gas & Electric Corporation to shut off street lights of the city when there is an air raid and that the corporation shall not be held responsible.

Captain L. S. Miller has called a meeting of all air raid wardens to be held in the gym in the M. J. Michael School on Monday evening at 7:30 o'clock to discuss plans made for Kingston in case of an air raid and during a test blackout.

Home Service "Nerves" Get Worse If Misunderstood

Attacks Symptom of Wrong Care

"What's the matter with you?" people ask furiously when you have an attack of "nerves." They may think it's all your imagination—but don't you be fooled.

"Nerves" are a very real kind of sickness, which gets worse if not understood.

You may have been repressing feelings which you thought bad but which aren't so unnatural; you get angry perhaps by noisy people in your family—or by a boring, chattering neighbor—until you could scream!

If you're the high-strung type you're more liable to such pin pricks than placid people. But repression doesn't help.

Detour your troublesome energies into happier outlets. Once on an even keel you can enjoy life more, be more vital, than friends once in a while, go to a different type of show, have a hobby to fly to.

Also, how is your general health? Wrong diet, poor eye-sight contribute to "nerves."

If you're nervous, you really ought to find out what's wrong. Our 32-page booklet by a well-known physician explains mental and physical causes of "nerves," advises on overcoming insomnia, fatigue, nervous indigestion; discusses diet, other health factors.

Send 10c in coin for your copy of "Overcoming 'Nerves' and Every-Day Health Problems" to The Kingston Daily Freeman, Home Service, 635 Sixth Ave., New York, N. Y. Be sure to write plainly your name, address, and the name of booklet.

Buy Defense Stamps

Self-interest as well as patriotism urges everybody to buy defense savings stamps and bonds. Our country needs the money now. Save and invest for victory and liberty. Buy now.

AVOID CAKE MOLD

Mold on your fruit cake? You don't have to put up with it any more for you can put mold retardant into your cake batter as one of the ingredients. The proprietors, the chemists say, come naturally in many foods like butter, cheese, cream, vinegar and Swiss cheese, but generally not enough to retard mold. Commercial bakers experimented with the idea successfully last Christmas.

At a meeting of the Ulster County (Nurse Representative) Health Preparedness Committee held at the office of the Ulster County Tuberculosis Association, 74 John street, Friday evening it was decided to contact all nurses, active or inactive, who have not yet registered for the nurses' inventory.

To facilitate the work of the Committee those registered nurses
